

SITUATIONAL REPORT AND INVENTORY OF TOURISM SUPPLIERS PROPERTIES IN TYPHOON AFFECTED AREAS

Most resorts are running on power generators such as **Shangri-la's Boracay Resort & Spa, Boracay Regency, Fridays, Discovery Shores, Asya Premier, The District**. There is proper water supply on the island, and communications as well although not optimal. Clean up on the island is being done. Flights and ferries are now operating on normal schedules.

Coron Island has been left with quite some damage, especially in the town where structures have collapsed and many roads are impassable, leaving some tourists stranded for a couple of days. Today, **Philippine Airlines** and **Cebu Pacific** have resumed their flights into and out of **Busuanga airport**.

Two Seasons and Asia Grand View have reported minimal damage. **Club Paradise** did also sustain some damages and has stopped operating to do their repair work until 30 November. **Busuanga Bay Lodge**, however, is fully operational with no damage at all.

The northern part of the mainland of **Palawan** was also affected. The town of **El Nido**, as well as the resort properties have sustained only minimal damage: **EL NIDO Pangulasian, Miniloc and Lagen**, and are fully operational with electricity, water supply and proper communications. **ITI Flights** are also running on regular schedule.

Amanpulo is doing a clean-up of the island and is currently closed until 25th of November to undergo some repair work brought about by the typhoon.

Some parts of **Cebu**, the northern part especially, and particularly **Bantayan Island and Malapascua**, were not spared from the damage. There is no communication on the island, and hence, we have no report of the actual situation there.

Malapascua Island Resort, sustained minimal damage, but many residents, sadly, have lost their homes.

Alegre Beach Resort, also situated on the northern part, has temporarily closed to do repair work on their cabanas.

Bohol, after the earthquake, was spared. Thus, leaving the island to continue to recover from the recent earthquake. Regular tourism activities are taking place on the island destination.

Luzon, where **Manila, Banaue, Tagaytay, etc** are situated are practically unscathed.

the **Bicol region. Donsol and Ticao Island** only sustained minimal damage as they are all well-prepared for the typhoon.
